Dear Rubin,

I've been meaning for some time to drop in and pay you a visit on one of my infrequent trips into New York, but it seems that whenever I do get into the city I have always such a multitude of things to accomplish that I fail to do many of those I most want to. And it looks as if it will continue to be this way until I'm finished with the book -- a milestone I hope to pass next month.

In the meantime, I'm enclosing a brochure which concerns one of the diverse matters about which I wished to speak to you. Martin Hall, whose background and qualities are briefly indicated in the brochure, is a good friend of mine. (One fact not indicated in the brochure is that he is the chairman of the Los Angeles Division of the Arts, Sciences and Professions.) During a recent visit to the east, he told me that he would like to do some lecturing in the spring for the IWO -- possibly go on some sort of a tour for us in connection with the case, or something of the sort. Anyway, he's an excellent speaker, and I believe that his services might be put to effective use. I think he has already spoken once or twice for some of our lodges out west. Perhaps you'd drop me a line when you get the chance and let me know what you think about the possibility of his doing some lecturing or going on some sort of a tour for us. I've promised Hall that I take this matter up with you, and so I'd like to be able to relay your opinion to him. Thanks.

Rockwell has sent me a copy of the very fine letter he wrote you, indicating the far-reaching success of his birthday celebrations. May I add my congratulations to his for the work you did on these impressive and greatly constructive events!

Best regards from Riette and myself to you,

Albert

Could you please return the brochure when you're through with it, as I need it for my files --
