Dear Brother:

In order to expedite the crystallization of those aspects of Convention proposals which cannot be left to the Constitution and By-laws Committee, I am jotting down my own ideas and will pass them on to you.

The first one, attached here, deals with the problem of the composition and structure of leadership. Others on degrees and on forms and relationships of sections to the whole Order, etc, will follow.

I give you these ideas of mine as thought-provokers for you. We should be able, then, in a few days to begin informal discussions about these problems, preliminary to formal consideration by the Executive Committee.

Fraternally yours,

Max Bedacht

General Secretary
